## **Application concerning risk insurance for geothermal plants in accordance with Art. 15a of the Energy Act and Art. 17a and 17b of the Energy Ordinance**

Dear Sir/Madam

Please complete, sign and return the enclosed form to the address indicated above.

If you have any questions, please contact the swissgrid **Customer and Information Centre** on:

**Telephone: +41 848 014 014**  
**info@swissgrid.ch**

**Office hours:**  
**Monday to Friday 07.30 a.m. - 5.30 p.m.**  
**(excl. national public holidays)**

Please send the signed form by post only, as according to Art. 3g Para. 2 of the Energy Ordinance, the post mark is necessary for processing purposes.<sup>1</sup>

Notes on completing the form:

- All fields marked with an asterisk \* must be completed.
- Please print clearly in block capitals.

---

<sup>1</sup> See Art. 3g Para.

2 of the Energy Ordinance dated 7 December 1998.

## Details of the plant - Address

16 Street name

17 Building number

18 Postcode

19 Town/city

### OR:

20 Swiss national coordinates

X coordinate

Y coordinate

**Plant data**

A request is to be enclosed with the application which provides information concerning the requirements in accordance with Clause 3 Appendix 1.6 of the Energy Ordinance. The request is to be arranged in accordance with Clause 3 Appendix 1.6 and the chapters corresponding to the required information are to be entered into the following list.

- 21 Information on the minimum overall utilisation level  
Chapter: |\_|\_|\_|\_|
- 22 Information on the electricity utilisation level  
Chapter: |\_|\_|\_|\_|
- 23 Detailed breakdown of the costs for drilling and testing  
Chapter: |\_|\_|\_|\_|
- 24 Information on the local geological and hydro-geological conditions and their foundations  
Chapter: |\_|\_|\_|\_|
- 25 Information on the projected aquifer or reservoir characteristics and the underlying research  
Chapter: |\_|\_|\_|\_|
- 26 Information on the projected feed rate, fluid temperature and mineralisation and the underlying research  
Chapter: |\_|\_|\_|\_|
- 27 Information on the definition of the criteria for success, partial success or failure with reference to feed rate, fluid temperature and mineralisation;  
Chapter: |\_|\_|\_|\_|
- 28 Information on the detailed drilling and testing programme  
Chapter: |\_|\_|\_|\_|
- 29 Information on the projected output of the plant and energy production (thermal and electric)  
Chapter: |\_|\_|\_|\_|
- 30 Information on the projected energy utilisation and its feasibility in the event of success and partial success  
Chapter: |\_|\_|\_|\_|

31 Information on the planned purchasers of electricity and heat in the event of success and partial success

Chapter: |\_|\_|\_|\_|

32 Information on the planned use of the drillings in the event of failure

Chapter: |\_|\_|\_|\_|

33 Information on the intended legal form and identity of the operating company

Chapter: |\_|\_|\_|\_|

34 Information on the financing of the project in the drilling and testing phase, construction phase and during operation

Chapter: |\_|\_|\_|\_|

**Please note:**

This registration for risk insurance relating to geothermal plants will not automatically register you for cost-covering feed-in remuneration for geothermal plants. To do this, download and complete the necessary form from the swissgrid homepage. Your registration for risk insurance relating to geothermal plants will also be processed without receipt of the registration for cost-covering feed-in remuneration. You will receive the decision on cost-covering feed-in remuneration in a separate step.

Further action: After receipt of the registration by the national grid company, receipt of the request will be reported to the Swiss Federal Office of Energy. The Swiss Federal Office of Energy represents an independent committee of experts which examines and evaluates the request. After the decision of the committee of experts with regard to the granting or refusal of the request, the national grid company examines whether the project is accommodated within the sum of the surcharges in accordance with Art. 7a Para. 4 of the Energy Act. The national grid company informs the party making the request of the result by means of a binding ruling.

## Confirmation of application and signature

### Please note:

The registration of the project can only be considered if it is complete. Consideration of the project is determined by the time at which the completed registration was received. The date on the postmark is considered as the date of receipt. Incomplete registrations will be sent back to the applicant for additions and completion.

In accordance with Article 28 Item F of the Energy Ordinance, anyone who deliberately or negligently provides incorrect or incomplete information during the registration or decision process, which is significant for the evaluation of the request, shall be liable to prosecution (Art. 3g, 17b and 29 Para 1).

48 The conditions of participation for project registration have been read and accepted.\*
