# Daniel Brand

Head of Grid Infrastructure  
Born in 1973, Swiss

Daniel Brand holds a doctorate in Mechanical Engineering from ETH Zurich and an EMBA from the University of St. Gallen. He began his professional career in 2005 as Head of R&D Turbocharging and Support for global Sales Engineering at ABB Turbo Systems AG. In 2014, he joined BKW Power Grid, where he held various management positions before becoming a member of the Executive Board and taking over as Head of Grid Operation in 2018. In this role, he was responsible for the strategic positioning, implementation and oversight of all activities relating to the expansion, operation and maintenance of BKW's distribution grid. He was also in charge of the operational management of the high-voltage installations services business. From 2022 to 2026, he was Chairman of the Board of Directors of Energie Münchenbuchsee AG.

Daniel Brand has been appointed Head of Grid Infrastructure and a member of the Swissgrid Executive Board with effect from 1 July 2026.
