General Ancillary Services (AS) – invoice for distribution grid operators and end users on the transmission grid

Period: 01.01.2009 - 31.01.2009

| 2 Product | 3 Quantity | 4 Price | Amount |
|---|-------------------|----------------|-------------------------------|
| General Ancillary Services for transmission grid area south | 3,275,953.058 kWh | 0.004 CHF/kWh | 13'103.81 CHF |
| General Ancillary Services for transmission grid area north | 3,176,470.000 kWh | 0.004 CHF/kWh | 12'705.88 CHF |
| Net amount | | | 25'809.69 CHF |
| VAT 7.6% of 25'809.69 | | | 1'961.54 CHF |
| Total incl. VAT | | | 27'771.25 CHF 5 |

6 The charge for general Ancillary Services is calculated from the volume of energy acquired by end users in the corresponding distribution grid multiplied by the general AS tariff. The calculation parameter for an end user connected directly to the transmission grid is the amount of energy the user has acquired for consumption.

Best regards
swissgrid ag

- 1. Your customer number** - Please always have it ready and quote it when making an enquiry
- 2. Product** – The tariff applied relates to the item mentioned here
- 3. Quantity** – Basic quantity of each item. The general AS tariff applies to the energy purchased by the end consumer in the distribution system
- 4. Tariff** – The tariff is applied to the quantity of each item. The value specified here (0.4 Rp./kWh) complies with the StromVV (Electricity Supply Act) (as amended on 14 December 2008)
- 5. Total** – Rate x quantity = amount (net excluding VAT)
- 6. Explanation** – Additional information and explanations e.g. regarding the legal basis etc.
